

STEAM Cleaned:
Exploring the Intersection Between Global Humanities and STEM
Through Clothing

Friday, April 15, 2016

2:00-4:00

Germantown Campus

Dear colleagues,

All of you have been identified as faculty who might be interested in playing a leadership role in this year's STEAM event. We are very excited about it and look forward to your participation!

The goal of the event is to provide faculty with the opportunity to have a collaborative discussion on a topic and to generate ideas for integrating STEM and Global Humanities content into their teaching. We would like to have 8 tables of 8 or so faculty, each table led by at least two faculty (representing STEM and Humanities or other disciplines such as Social Sciences).

The link below will take you to a sign-up document. We will use responses in chronological order to create 8 teams. Several of us brainstormed a list of potential topics which are in the column on the left. There is a column for STEM faculty and one for Humanities faculty. We are asking you to take responsibility for signing up for a topic. You are very welcome to add your own topic. You may recruit a partner from across the disciplines or sign up solo and see who might join you. We are doing it this way to involve as many faculty as possible, encourage you to lead a discussion on a topic that is most of interest to you, and to help us effectively keep track of who is doing what!

<http://goo.gl/forms/JQMrZxDM6U>

We will send a follow-up email at the beginning of the semester after you have had a chance to sign up. Please let us know if you have any questions.

All best wishes,

Carol and Rita
